The Great Lesson in Motor Car Buying

Which the experienced man has learned to his advantage, is to buy a car that has a value. The value that the public places on a second-hand car is, in my opinion, the best endorsement that any dealer or manufacturer can refer to. Sooner or later you will want to trade or sell your car. Can you get rid of it, and if so for how much?

PACKARD CARS

HAVE NOT BEEN BUILT LONG ENOUGH YET TO BE UNSALEABLE

PACKARD Cars in the past and in the future will bring nearer their original cost than any other motor car on earth.

"ASK THE MAN WHO OWNS ONE."

SECOND-HAND CARS

1907 Packard Cars (guaranteed) \$3000

1906 Packard Cars (guaranteed) \$2000

1905 Packard Cars (guaranteed) \$1200

ALVIN T. FULLER, Motor Mart

PARK SQUARE, - - BOSTON

THREE WINNERS

STANLEY

Fastest car in the WORLD. (One mile in 28 1-5 seconds.)

PREMIER

World's non-stop record 4906 miles, 1300 miles more than previous record. Only four-cylinder car listing under \$3500.00, competing for Glidden Trophy, to finish with a perfect score. Holds non-stop record New York to Boston and return with high speed lever sealed.

REO

Only car of its price (\$1250.00), and with one exception the only car of less than double its price, that finished the Glidden tour with a perfect score, and at the finish made a non-stop dash to the Jamestown Exposition (500 miles, in 23 hours and 24 minutes).

HIGH GRADE DEODORIZED GASOLENE

FOR AUTOMOBILES, MOTOR BOATS AND STATIONARY ENGINES

Made from the best quality of Pennsylvania Crude, and free from the carbonizing effects of inferior blended products, which also cause a smoky offensive exhaust owing to the presence of sulphur.

By virtue of the superior quality of the crude oil from which it is made, it is chemically pure, volatile, entirely free from heavy oil or naphtha which prevent perfect combustion, and develops either in Automobiles, Marine Motors, or Stationary Gasolene Engines, the highest efficiency of power and economy.
